REPORT

Activity name :- "Say No to Single use plastic" campaign
Name of the Department / organising society :-NSS /Eco society

Date : 01.10.2019

No. of participants :- 200

Objective of the event :- To prevent clogging of drains and reducing the risk of animals ending up dead because of the plastic waste ingestion and encouraging the use of environment friendly material.

Description of the Event :- On the occasion of Gandhi Jayanti a poster making competition was organised on the theme " say no to single use plastic". 22 students participated in the event and the first three winners were given certificates of appreciation. After this a rally was taken out with the posters made by students . The NSS volunteers went to nearby localities and village Chaudhary Majara to make door to door campaigning . Tree plantation was also done near the college ground.

Outcome of the event :- This event made people and students aware of the devastating impact of plastic on the environment. Every single use plastic item we use today adds to the mass problem of tomorrow and beyond.
